Subject: Request

Good morning. I need to see if I can get additional information from you regarding this matter. When I spoke with Sandy McVeigh, she told me that when she learned of the mix up she retested three samples above Officer [REDACTED] sample as well as three samples below his and ultimately discovered how the mistake occurred. Can you provide to me the initial reports from the three samples above and below Officer [REDACTED] when it was originally tested and copies of the reports from the three samples above and below when it was retested and Officer [REDACTED] test was determined to be negative.

Also would you be able to tell me if Officer [REDACTED] and [REDACTED] were tested in the same batch as Officer [REDACTED]?

Gregg White
